Test Runs List Gadget

This gadget provides a way to see the status of all the Test Runs of a group of Test Executions.

Test Runs List
By Xpand-IT • Local

Test Runs List table showing test run status.

Add gadget

Purpose

This gadget enables you to see which Tests were or are going to be executed, along with their corresponding results.

Possible usage scenarios:

- see all the runs of a given Test Execution
- see all the runs of all Test Executions associated with a Test Plan
- see all the runs associated with a particular component
- see the executions performed by or assigned to a specific user.

How to use

Select and filter Test Execution issues with:

- **Saved Filter:** a saved filter containing Test Execution Issues. This field is mandatory
- **Date range:** only Test Runs with start date and end date between the selected range will be considered
- **Test Run Assignee:** the Assignee of the Test Run
- **Executed by:** the user who executed the Test Run
- **Test Component:** the project component associated with the Test
- **Test Priority:** the priority of the Test
- **Test Run Status**: the status of the Test Run

It is also possible to configure the:

- **Custom Title:** specify a title for the list; otherwise, it will display "Test Runs List"
- **Number of results:** the number of results per page
- **Refresh Interval:** how often the gadget will be updated

Test Runs List

Custom Title:

Use a custom title

Saved Filter: **No Filter selected**

Advanced Search Clear

Date range: Enable date range filtering

The date range filter will hide all Test Runs with a non final status.

Range type:

Custom

Start date:

yy-mm-dd

End date:

yy-mm-dd

Test Run Assignee: **No User selected**

Quick Find

Clear

Start typing to get a list of possible matches of existing Test Run Assignees

Executed by: **No User selected**

Quick Find

Clear

Start typing to get a list of possible users

Test Component

Select Project

All

Choose the project component to analyze

Test Priority: All

Choose the Test Priority

Test Run Status: All

Select the Test Run Status

Number of results: 10

Number of results to display
