

Tests List Gadget

Xray provides a gadget for viewing tests and their latest status for a particular release.

Tests List

By Xpand-IT • Local

Add gadget

List of tests with their latest status for a given project, version, or test plan, and test environment.

Purpose

This gadget enables you to quickly check the status of a group of tests for a specific Version, Environment or Test Plan.

Possible usage scenarios:

- analyze a group of Tests for a given version
- analyze a group of Tests for a given version and Test Environment
- analyze the status of Tests belonging to a Test Set

How to use

Test issues for the chart can be provided by selecting the saved filter, project and/or Test Plan:

- **Saved filter:** a saved filter containing Test issues
- **Project:** auxiliary field containing the Project to take into account when selecting the Test Component
- **Test Component:** filter Test issues by component (taken into account the selected Project)
- **Test Priority:** filter Test issues by priority

Additional configuration parameters for this gadget include:

- **Execution Scope:** either Version or Test Plan
- **Test Plan Key:** the key of the Test Plan, if the Execution Scope is "Test Plan"
- **Analysis Version:** the version, if the Execution Scope is "Version"
- **Test Environment:** the test environment in which the tests were run
- **Number of results:** the number of results per page
- **Refresh Interval:** how often the gadget is updated

Tests list: (v1.0)(All Components)(All Environments)
