Administration Settings

Xray is configured in the Jira Administration > **Add-ons** > **Xray**.

The following administration pages are provided:

- Global Preferences: general settings for Xray.
- Custom Field Preferences: configure Xray custom fields.
- Issue Type Mapping: configure which issue types are mapped to Requirements, Defects and Sub-Requirements.
- Requirement Coverage: configure Requirement Coverage settings such as requirement coverage strategy, ignored Requirements and Tests with specific statuses, etc.
- Requirement Projects: configure the projects that have requirements, so they can be covered with Tests and handled accordingly.
- Manage Test Statuses: configure custom Test Run statuses for Xray.
- Manage Test Step Statuses: configure custom Test Step statuses for Xray.
- Default Column Layouts: configure your Xray license provided by Xpand Add-ons.
- Integrity Checker: ensures that Xray components are correct.
- License Management: configure the default columns for each table on the screens.
