

Project Settings

Xray's project-level settings are configured in each project's Jira Administration -> **Settings** -> **Xray Settings**.

Team-Managed projects are also supported by Xray. Additional manual configuration steps are need for these projects as users first need to create the Xray issue types manually and then map these issue types with Xray entities.

Summary

This page contains a brief summary of the Xray configurations for this project.

Issue Types

Xray Entity	Issue Type	Description
Test	Not configured	
Precondition	Not configured	
Test Set	Not configured	
Test Plan	Not configured	
Test Execution	Not configured	

Miscellaneous

This project is currently using the global miscellaneous settings. [Configure](#)

Test Coverage

This project has no issue types mapped as covered. [Configure](#)

Defect Mapping

This project has no issue types mapped as defects. [Configure](#)

Test Types

The following sections are provided:

- [Summary](#): general settings for Xray;
- [Issue Types Mapping](#): mapping between project issue types and Xray entities (**only for team-managed projects**);
- [Miscellaneous](#): general settings for Xray;
- [Test Coverage](#): configure which issue types can be covered with tests;
- [Defect Mapping](#): configure which issue types should be handled as defects;
- [Test Types](#): configure custom Test Types;
- [Test Environments](#): configure Test Environments available for this project;
- [Test Step Fields](#): configure the Test Step Fields for this project;
- [Test Run Custom Fields](#): configure the Test Run Custom Fields for this project;
- [Parameter value lists](#): to define generic lists of values that can be referenced in datasets in Xray;
- [Default Column Layouts](#): configure the default column layout of specific sections;
- [Re-indexing](#): check and enforce synchronization between Jira Cloud and Xray.
