Purpose

This report allows shows some relevant metrics about that enable you to evaluate a Test Plan and eventually compare it with others.

Possible usage scenarios:

- analyze both the progress of the Test Plan and its success rate (i.e., the % of Tests contributing to the requirement's OK status)
- analyze the success rate by Test Environment
- see the number of manual Tests vs. others in the Test Plan
- see the overall execution status (i.e., the latest status of the Tests of the Test Plan)
- see the number of linked defects opened/closed, in the context of the Test Plan

How to use

This report is accessible either from the **Xray Reports** icon on the project left sidebar or from the standard **Reports** icon, which includes other kinds of reports besides Xray.

At the top of the report you'll find two areas related with the report and with the data shown in the report.

Test Plans Metrics ⓘ

The screenshot shows the 'Test Plans Metrics' report interface. At the top right is a 'Share' button with a share icon. Below it is a 'Filters' section. The 'Filters' section contains a dropdown menu labeled 'Project: Calculator' and a toggle switch labeled 'Final statuses have precedence over non-final.' with a checkmark. To the right of the toggle is a red letter 'A'. To the right of the 'Filters' section is a red letter 'B' and a 'Show' button with a dropdown arrow.

- **A:** Filter, for selecting the source data
- **B:** Column configuration, for selecting which columns are displayed in the report

Source data

Source Test Plan issues can be directly provided (within section A) using a advanced filter or by specifying some Test Plan fields:

- **Advanced:** a JQL query to filter the coverable issues
- **Basic:**
 - **Project:** project
 - **Assignee:** the issue's assignee
 - **Component:** the component assigned to the issue
 - **Fix Versions:** versions assigned to the issue

- **Resolution:** the workflow resolution
- **Status:** the workflow status
- **Contains:** the full issue key or part of the summary

Metrics

Metric	Notes
"Totals" (Test Executions)	Number of Test Executions related with this Test Plan
"Totals" (Test Runs)	Total number of Test Runs from all related Test Executions
"Totals" (Tests)	Number of Tests being tracked by the Test Plan
"Tests by Status"	Number of Test Plan's Tests, per latest status
"Tests by Test Type"	Number of Test Plan's Tests, per Test Type
"Success Rate"	% of "successful" Tests (i.e., only the PASSED Test Run status contributes to this calculation)
"Success Rate by Test Environment"	% of "successful" Tests (i.e., only the PASSED Test Run status contributes to this calculation), per Test Environment

"Defects" (Open/Close)

Defects directly associated with the related Test Runs (i.e., that were created within the context of Test Executions of a given Test Plan). Will count unique Defects (i.e., if the same Defect issue is added multiple times in the same Test Run or added multiple times within Test Runs within the same Test Plan, it will count as one)

Defects with Resolution will be counted in the Closed column; all others will be counted in the Open column.
