Test Runs List Gadget

This gadget provides a way to see the status of all the Test Runs of a group of Test Executions.

Test Runs List
By Xpand IT • Local

Add gadget

List of Test Runs with their latest status for a project/filter, version, test plan, and test environment.

Purpose

This gadget enables you to see which Tests were or are going to be executed, along with their corresponding results.

Possible usage scenarios:

- see all the runs of a given Test Execution;
- see all the runs of all Test Executions associated with a Version;
- see all the runs associated with a particular component;
- see the executions performed by or assigned to a specific user or the current logged in user;

How to use

Select and filter Test Execution issues with:

- **Project or Saved Filter:** a project or saved filter containing Test Execution Issues. This field is mandatory.
- **Test Filters:**
  - **Priority:** priority of Test issues;
  - **Component:** component of Test issues;
  - **Status:** workflow status of Test issues;
  - **Contains**: match Test issues by text.
- **Test Run Filters:**
  - **Assignee:** Test Run assignee;
  - **Executed By:** Test Run executed by;
  - **Status:** Test Run status.
- **Date range:** only Test Runs with start date and end date between the selected range will be considered.

It is also possible to configure the:

- **Number of results:** the number of results per page;
- **Auto-generate gadget name:** whether the name of the gadget should be generated based on its parameters or defined by the user;
- **Columns to display:** which columns to display from the Test issue, Test Execution issue or Test Run entity.
