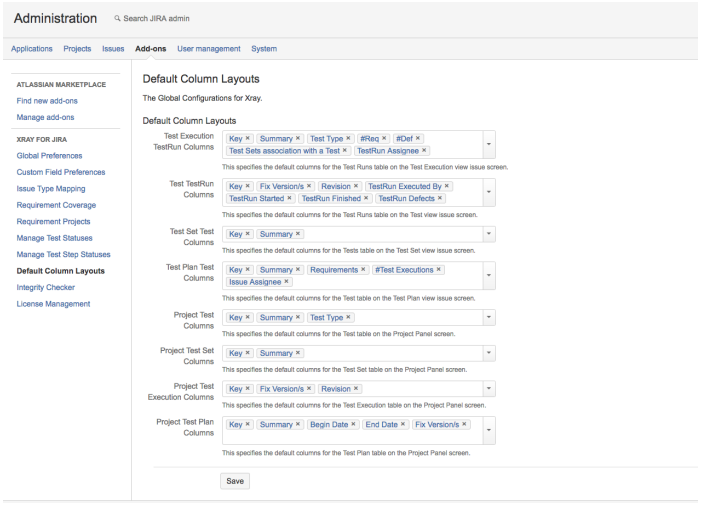
Default columns layout

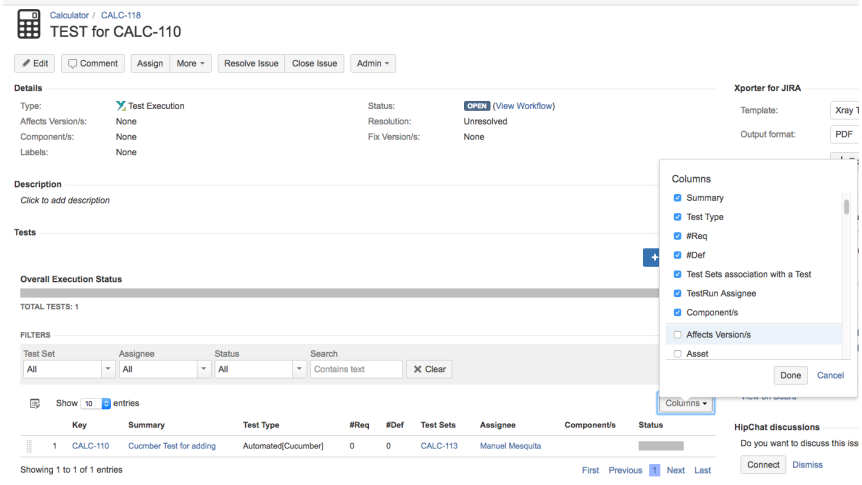
- Each Xray page will have a table with configurable columns
- Reseting to default columns

The Xray administrator can set the default columns layout for each table of Xray views.



Each Xray page will have a table with configurable columns

In each Xray table, you are free to choose what information you want in each page.



Reseting to default columns

If you want to reset the columns configuration to its default values, click **Restore Defaults.**
