

# [Xray Server] Empty Traceability Report with "No matched requirements found."

## Problem

Sometimes the Traceability Report will show the message "No matched requirements found" even though there are Requirements on your project.

### Traceability Report Switch report ▾

Scope: testPlan; Test Plan: OQUELINDA-3; Environment: All Environments ▾ Filter(s) ▾  [How to read this report](#)

Quick Filters: OK (0) NOK (0) UNKNOWN (0) NOTRUN (0) UNCOVERED (0)

 No matched requirements found.

## Possible Causes

The cause is when field "Requirement Status" is hidden in the field configuration.

## Solution

1. TestRunStatus is hidden on the configuration field, need to go **Issues -> Field configurations**:

View Field Configurations

Add field cont

The table below shows Field Configurations and the Field Configuration Schemes they are used in. A Field Configuration provides the ability to change field behavior; it essentially tells Jira how to handle a particular field. For example, a Field Configuration can be used to hide a field from all input screens and views, or to make a field require a value every time it is edited.  
Field Configurations are activated by placing them into Field Configuration Schemes, and then associating a scheme with one or more projects.

Name	Field Configuration Schemes	Actions
<b>Default Field Configuration</b> The default field configuration		<a href="#">Configure</a> <a href="#">Copy</a>
<b>Jira Service Desk Field Configuration for Project BIBAC</b> This Jira Service Desk Field Configuration was generated for Project BIBAC	<ul style="list-style-type: none"><li>Jira Service Desk Field Configuration Scheme for Project BIBAC</li></ul>	<a href="#">Configure</a> <a href="#">Copy</a> <a href="#">Edit</a>
<b>[REDACTED]</b> The default field configuration	<ul style="list-style-type: none"><li>Rama</li></ul>	<a href="#">Configure</a> <a href="#">Copy</a> <a href="#">Edit</a>

**Requirement Status**  
The requirement test status by version or test plan
