Built-in Reports

Xray provides some built-in reports that can be used to analyze your project in different ways, including testing progress, current requirement statuses, and so on.

These reports are either accessible from the **Xray Reports** icon on the project left sidebar or from the standard **Reports** icon, which includes other reports besides Xray.

- Traceability Report
- Overall Requirement Coverage Report
- Historical Requirement Coverage Report
- Test Plans Report
- Test Executions Report
- Test Runs Report
