Integrations from the community and other products

This page provides an extensive list of <u>unvalidated</u> resources from the community and other vendors that have some sort of integration with Xray; we share them with you just for reference. Use them wisely.

- Commercial products having some sort of integration
- Community Resources

ⓘ **Thanks!**

We thank the community for contributing to sample projects, code, how-tos, documentation, and articles. Xray is better – thanks to you. We're happy to include links to your contributions 🙂

This list is not complete and may be easily outdated, as new integrations may appear with some frequency.

Disclaimer: Xray is not responsible for the contents provided by these external entities nor provides any support whatsoever related to them.

Commercial products having some sort of integration

- Parasoft DTP (Development Testing Solution)
- iCEDQ
- Squish Test Center
