[Xray Server] Cannot change Xray Issues Type directly on the Issue

You are trying to change any Xray Issue Type into another Issue Type, and you can't do so through the issue directly?

To be possible for you to switch the Issue Type directly from the issue, you have to ensure that the "Issue Type" custom field is present on the *Edit Issue* screen:

TXP: Xray Default Test Screen

||| General ✏ ⊗ | ||| Test Details | ||| Test Sets | ||| Pre-Conditions | ||| Test Plans | ||| Link Issues ⊕

Type:
Scenario Type:
Scenario:

Then the result should be <total>

Examples:
```
| num1 | num2 | total |
| -2   | 3    | 1     |
| 10   | 15   | 25    |
| 99   | -99  | 0     |
| -1   | -10  | -11   |
```

Which, by default, is not included on **Xray's Default Screens**.
