

# 1.7.2 Release Notes

The Xray team is proud to announce **Xray Exploratory App** for Windows, Mac, and Linux version **1.7.2**.

This version is all about more improvements and bug squash. Also, now you have more flexibility when creating new defects, a new field available: Version Picker (Single version). What's new?

## New installation requirements

Note that since version **1.4.0**, the Exploratory App **requires Jira Server and Data Center version 8.4.0 or higher**.

## Release highlights

- Now you can Defects with Version Picker (Single version) during test sessions
- More than 5 small bugs fixed.
- Please keep reporting all the problems you face to our amazing support team. We will fix them. 😊
