Application links

Application links let you integrate Jira with another Atlassian product or external application so they can exchange information, resources, and functionalities. What exactly is exchanged will depend on the applications you link. Learn more about application links

Create link

You haven't linked any applications yet

To create an application link, enter the URL of the application
you're linking to and click Create new link. Once linked you'll see
the status of the connection.

Atlassian Jira Project Management Software (v8.22.3#822003-sha1:4d0a34e) · About Jira · Report a problem
Powered by a free Atlassian Jira evaluation license. Please consider purchasing it today.
