

[Xray Server/Data Center] Xray's Default Screens and Screen Scheme

This Knowledge Base page was created to complement Xray's [Custom Fields and Screen Configuration](#) Documentation page and inform users what Xray's Default Issue Types Screens and Schemes will look like on Xray's first installation in a Jira instance.

Note: all data, descriptions, and screenshots were inputted with the latest Xray version available at the time of page creation: [Xray v6.2.6](#).

Default Screens and Schemes

These are the Screens and Schemes Xray uses for the creation of any new project-dedicated Screens and Schemes:

Xray Default Pre-Condition Screen This is the default screen for the create/edit operations on Pre-Condition issues	<ul style="list-style-type: none">• Default Xray Pre-Condition Screen Scheme	Configure	Edit
Xray Default Sub Test Execution Screen This is the default screen for the create/edit operations on Sub Test Execution issues	<ul style="list-style-type: none">• Default Xray Sub Test Execution Screen Scheme	Configure	Edit
Xray Default Test Execution Screen This is the default screen for the create/edit operations on Test Execution issues	<ul style="list-style-type: none">• Default Xray Test Execution Screen Scheme	Configure	Edit
Xray Default Test Plan Screen This is the default screen for the create/edit operations on Test Plan issues	<ul style="list-style-type: none">• Default Xray Test Plan Screen Scheme	Configure	Edit
Xray Default Test Screen This is the default screen for the create/edit operations on Test issues	<ul style="list-style-type: none">• Default Xray Test Screen Scheme	Configure	Edit
Xray Default Test Set Screen This is the default screen for the create/edit operations on Test Set issues	<ul style="list-style-type: none">• Default Xray Test Set Screen Scheme	Configure	Edit
Xray View Pre-Condition Screen This is the view operation screen for Pre-Condition issue type	<ul style="list-style-type: none">• Default Xray Pre-Condition Screen Scheme	Configure	Edit
Xray View Sub Test Execution Screen This is the view operation screen for Sub Test Execution issue type	<ul style="list-style-type: none">• Default Xray Sub Test Execution Screen Scheme	Configure	Edit
Xray View Test Execution Screen This is the view operation screen for Test Execution issue type	<ul style="list-style-type: none">• Default Xray Test Execution Screen Scheme	Configure	Edit
Xray View Test Plan Screen This is the view operation screen for Test Plan issue type	<ul style="list-style-type: none">• Default Xray Test Plan Screen Scheme	Configure	Edit
Xray View Test Screen This is the view operation screen for Test issue type	<ul style="list-style-type: none">• Default Xray Test Screen Scheme	Configure	Edit
Xray View Test Set Screen This is the view operation screen for Test Set issue type	<ul style="list-style-type: none">• Default Xray Test Set Screen Scheme	Configure	Edit

Default Xray Pre-Condition Screen Scheme This is the screen scheme used by raven issue type pre-condition	<ul style="list-style-type: none">• Default Issue Type Screen Scheme	Configure	Edit	Copy
Default Xray Sub Test Execution Screen Scheme This is the screen scheme used by Xray issue type Sub Test Execution	<ul style="list-style-type: none">• Default Issue Type Screen Scheme	Configure	Edit	Copy
Default Xray Test Execution Screen Scheme This is the screen scheme used by Xray issue type Test Execution	<ul style="list-style-type: none">• Default Issue Type Screen Scheme	Configure	Edit	Copy
Default Xray Test Plan Screen Scheme This is the screen scheme used by Xray issue type Test Plan	<ul style="list-style-type: none">• Default Issue Type Screen Scheme	Configure	Edit	Copy
Default Xray Test Screen Scheme This is the screen scheme used by Xray issue type Test	<ul style="list-style-type: none">• Default Issue Type Screen Scheme	Configure	Edit	Copy
Default Xray Test Set Screen Scheme This is the screen scheme used by Xray issue type test set	<ul style="list-style-type: none">• Default Issue Type Screen Scheme	Configure	Edit	Copy
